

Tips to minimise dust clean up:

1	Remove all furniture from work area
2	Remove all items from wall and kitchen benches
3	Empty or seal cupboards
4	Seal doors with plastic and or masking tape
5	Plastic to stairways or archways to isolate certain areas
6	All electrical equipment to be removed
7	Dishwashers and fridges to be disconnected and removed
8	Allow all doors and windows to open for good ventilation

LIABILITY

All care will be taken by Totally Stripped to ensure there is no damage to the concrete pad or walls. However due to the nature of the job floor pads occasionally do get damaged together with wall and skirting's.

It is generally accepted in the industry that if anything does get damaged it is the responsibility of the client to rectify. Our workers take every care to protect your property and belongings.

When tiles meet tiles, or timber flooring meets tiles, Totally Stripped cannot be held responsible in any form or way for replacement or damage to timber and tile, due to the large equipment that we use. We take all due care but accidents happen which are unpredictable.
